

5/3/12

Russell,

Just want to give you my appreciation of your outstanding advice and quality services today (and also driving with me to the courthouse). I can't thank you enough for your genuine concern / compassion about my situation! God bless you. You have literally saved my life as I was in the process of taking my own life. You have no idea how appreciative I am to you for what you accomplished on my behalf in such a short period of time. I can now eat, sleep and stop taking doctor prescribed sleeping pills for the extreme anxiety this situation caused me.

If you have any prospective clients that may require an attorney and have any questions about you or your law firm, please don't hesitate to have them call me, as I will highly recommend you to any prospective client.

Thanks again,

Billy Cassels

P.S. If you have a review website on line, please let me know as I want to "highly" recommend you for your invaluable, unsurpassable services.
