

10/5/12

Hello Kelly,

It gives me immense pleasure to send out my thanks to you and Mr. Bryant for your kind support and guidance throughout my association with you. Being an international student, I was not much aware of the traffic rules and regulations in the United States. Due to which, I was caught in an unintended situation and I am highly satisfied with the level of professionalism with which you dealt my case. I did meet some not so good people in this country who refused to take my call after putting me in a situation and not returning the money that they have collected from me as car-rent in advance. However, it would be the memories of good people like you which I will take back with me to my country.

Again, I would like to thank you guys for your kind efforts.

Regards,
Rahul Mishra
