Mr. Bryant:

Thank you for the miraculous result to my speeding and reckless driving case. As a 19 year old, these charges would have been terrible for my insurance and I would have not been able to work without my license. You gave me great advice when we first met in your office, right after I got the tickets. The defensive driving class and community service hours you recommended helped me get everything done that the court required, so we could take it to court with us. I think it really helped that you knew everybody in the courtroom and they seemed to really respect you. The end result, which was a small fine and no tickets on my record rather than a huge fine and a six month suspension, was so much better than we expected. I don't think anybody else could have negotiated a better result.

I am taking your advice to keep my grades up and to do the right things while I am at college. I feel like you have given me a second chance and I want to make the best of it.

Sincerely,

Brandon Saville
